

When Reliability matters, only

EQUITRON®

SEROLOGICAL WATER BATH

DIGITAL

Applications:

- ◆ Ideal for sample pre-treatment in QC, for Serological tests in Pathology and all thermostating tests.

EQUITRON Advantages:

- ◆ Fully stainless steel, including bottom, makes it GMP standard & total rust proof.
- ◆ Easy to set & use - direct digital setting & readout.

Construction:

- ◆ Double walled full SS construction with glasswool insulation.

Standard Features:

- ◆ Temperature Range: Ambient +5°C to 90°C.
- ◆ Digital Temperature Controller cum Indicator - 1°C resolution.
- ◆ Energy efficient tubular heater.

Optional Accessories:

- ◆ Gabled lid of stainless steel, specially designed so that the condensate drips on sides.
- ◆ A pack of float balls for containing evaporation loss. These balls will form a movable and flexible layer that facilitate easy removal and placement of test tubes, racks without the hassles of opening and closing a lid.
- ◆ Suitable test tube racks.
