# MINI ACA CLAMP ADAPTER

**Model : CA-201**

|              |                                                                                        |                 |
|--------------|----------------------------------------------------------------------------------------|-----------------|
| Range        | 2 ranges - 20 A,200 A                                                                  |                 |
| Output       | 200 A                                                                                  | 1 AC mV/1 ACA.  |
|              | 20 A                                                                                   | 10 AC mV/1 ACA. |
| Accuracy     | $\pm (1.2 \% + 0.5 \text{ AC mV})$ .                                                   |                 |
| Power Supply | No need battery.                                                                       |                 |
| Dimension    | HWD 180 x 47 x 35 mm.                                                                  |                 |
| Weight       | 150 g/0.49 LB.                                                                         |                 |
| Applications | To match DMM's ACV 200mV<br>or AC 2 V range be used as a<br>Precision ACA Clamp Meter. |                 |
