Laser Photo TACHOMETER

Model : DT-2234BL

FEATURES	
* Laser light detecting source, long measuring range up to 2 meters, it is useful in the RPM measurement application where the machine would be a risk to the operator or close access is difficult or not possible.	
* Wide measuring range from 10 to 100,000 RPM, 0.1 RPM resolution for the measured value < 1000 RPM.	
* Microprocessor based circuit, crystal time base, high precision with 0.05% accuracy.	
* High visible LCD display gives RPM reading exactly with no guessing or errors & saves battery energy.	
* Memory with recall function, the last value, max., value, min. value will be stored into the memory automatically.	
* The use of durable, long lasting components, including a strong, light weight ABS plastic housing, assures almost maintenance free performance for many years.
