

MASTER OF ALL TRADES

iFuge L400R

(Multipurpose Versatile Laboratory Centrifuge)

iFuge L400R

(Multipurpose Versatile Laboratory Centrifuge)

Usually, a jack of all trades is master of none, but the iFuge L400R Multipurpose Versatile Laboratory Centrifuge is definitely the master of all trades as it cater to all of your centrifugation requirements.

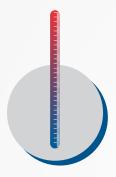

Designed from scratch using the best quality raw materials, iFuge L400R effortlessly incorporates unmatched performance, convenience and fool-proof safety features to give you a much-needed peace of mind. Featuring exceptional and top of the range features like user-programmable interface, dedicated 9 acceleration & 9 deceleration modes, and intuitive interface, iFuge L400R is one centrifuge that will blow others out of the water with its sheer intuitiveness and versatility.

It begins where others end

Powerful and reliable enough to replace all your existing centrifuges, iFuge L400R goes where no other product has gone by providing virtually unlimited versatility in terms of usage as well as performance.

Temperature Ranges from -10 to 40°C

More than 15 rotor options (swing & angle) for different work protocols

Max capacity of 4 x 100 ml (swing out rotor)delivers upto 4500 RPM

High performance Brushless DC motor for a maintenance-free long life Microprocessor control for quick & easy programming

Adjustable speed range from 500 to 4500 RPM

Timer setting from 1 to 999 mins with Infinite mode

Lid lock safety – will not open while rotor is running

With great power comes great responsibility

iFuge L400R's exemplary performance is complemented by its range of expansive safety features designed to protect you against the most unlikeliest scenarios. Enjoy a complete peace-of-mind that comes with buying quality products directly from the manufacturer.

Electronic Imbalance detection for maximum safety

9 acceleration &9 deceleration rates forstarting & stopping withoutdisrupting fragile samples

User programmable feature – User can save upto 99 programs of 4 lines each

Large back lit LCD display for easy reading of multiple parameters Intuitive interface for quick and convenient setting

One touch toggling between RCF & RPM

Short spin feature for short centrifugation & fast pelleting

Stainless steel rotor chamber – corrosion free and easy to clean

Convenience at your fingertips

Less effort more work

Your convenience takes a priority with iFuge L400R which is designed to deliver high performance at a fraction of the effort that you would require with other centrifuges. Now, experience what utter effortlessness feels like with the iFuge L400R.

Designed to operate at low noise levels for healthier laboratory environment

Emergency lid release for additional safety

Low height design for easy loading and unloading of sample

Specifications

Specifications	iFuge L400R
Rotor Capacity max.	4 x 100 ml
Maximum Speed RPM / RCF (g)	4500 rpm / g varies as per rotor
Motor Type	(BLDC) Brushless DC motor
Temperature range	-10°C to 40°C
Display	Yes, Large LCD Display
Speed Setting	500 to 4500 RPM
Timer Setting	1 to 999 Mins & infinite mode
Programmable	Yes, user can save & run upto 99 programs
Imbalance detection	Yes
Dimensions (WxDxH) in mm	705 X 585 X 330 mm
Weight	55 kg (without rotor)
Rotors (not included)	Multiple rotor options (Swing & Fixed angle rotors)
